

**Environment (Wales) Act 2016 Part 1 - Section 6
The Biodiversity and Resilience of Ecosystems Duty
Report 2019**

Trefnant Community Council

Trefnant Community Council provides a small range of services to its local community which have an impact on biodiversity. These include:

- Funding – we give grants for grass cutting at the Village Hall.
- Planting of trees such as cherry trees along the Cherry Tree Mile in Trefnant.
- We always consider the Well-being of Future Generations (WFG) when assessing planning applications for the Trefnant area.
- Promotion of North East Wales Wildlife Trefnant Nature Reserve on Community Council's website.

We serve approximately 1514 residents in the community. The precept for 2019-20 is £6,304.00

Action Plan: To review the S6 duty at the Annual General Meeting in May 2020.
